

THE SHD8100L LAB LANGUAGE SYSTEM WITH COMPUTER

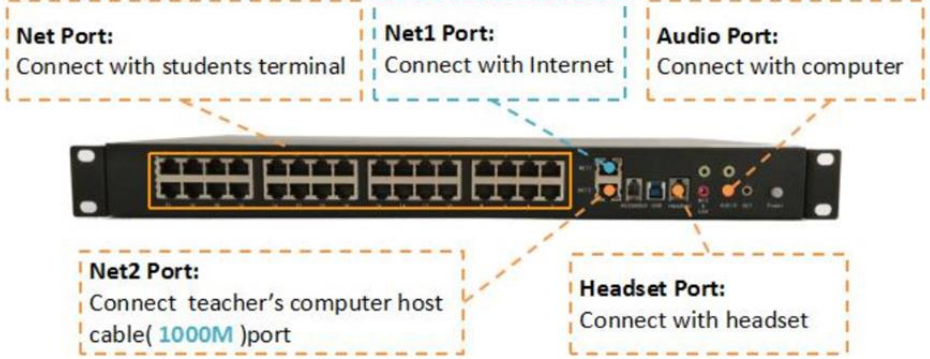

The SHD8100L is Lab language system use with the computer, one Students uses 1 terminal students amplifirer with a computer, use connect keyboard and mouse by USB port, students can watch the video through by monitor of student, it has basic function of lab language system.

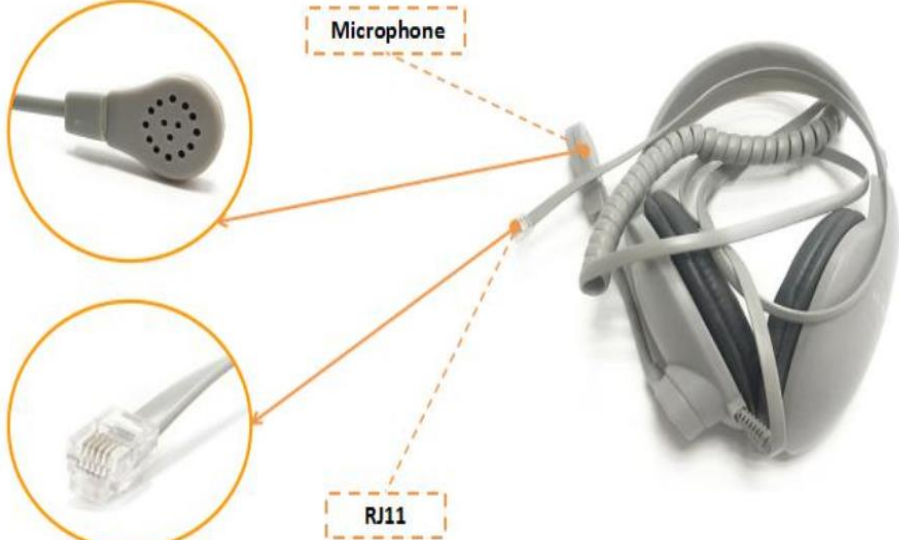

The detail of system

| | |
|-----------------|--|
| The main system | |
| |  <p>Teacher's Computer (monitor and host – Optional)</p> |
| Teacher part |  <p>Audio data switch or main consolve (SHD8100L)</p> |
| | <p>The software system</p> |
| | <p>The software system</p> |

| | | |
|-----------------|---|--|
| |  | Headset (RJ11 connection port) |
| Students part |  | Students terminal/Amplifier students (SHD8100L) |
| |  | Headset (RJ11 connection port) |
| |  | USB Keyboard and mouse |
| |  | Student's Computer |
| Other part | | CAT 5/6 (Standard) |
| | | Other wires(Power/VGA) |
| | | Teacher's desk and chair |
| | | Student's desk and chair |
| Multimedia part | | <ul style="list-style-type: none"> - Projector and project screen - Projector and interactive whiteboard - Interactive flat panel |
| | | - Apmlifier |

| | | |
|---------------------------|--|---|
| <p>Optional</p> |  | <p>Mobiview use for teacher or students control and writing</p> |
| <p>Diagram Connection</p> |  | |
| <p>The specification</p> | | |
| | <p>System: MTBF: more than 1000 hours, crash and failure dropped ≤ 1 The success rate of terminal star: 100% Condition of use: -10 -45°C Relative humidity: 20%-80% Atmospheric pressure 86-106Kpa System power supply 220V ± 22V AC voltage Power frequency: 50 ± 2.5Hz</p> | |

| | |
|---|--|
| <p>Audio Data switch of 12844.1 KHz/16bit Audio data transmission, voice delay <1ms Power supply: Standard 220v ± 220V power supply, output voltage 9V Intelligent switches: all the students' terminal power supply unified by audio data switch SNR>80dB, distortion<1% all in one network port (power supply, communication control, data exchange and high-definition VGA signal). Connect port expanding: USB2.0*2 port, USB3.0*2 port, VGA, HDMI, LAN, wifi, Mic in, headphone, kingstone lock Connection wireless with smartphone(android and iOS) for control by smartphone and note.</p> |  <p>Net Port: Connect with students terminal</p> <p>Net1 Port: Connect with Internet</p> <p>Audio Port: Connect with computer</p> <p>Net2 Port: Connect teacher's computer host cable(1000M)port</p> <p>Headset Port: Connect with headset</p> |
| <p>Teaching function: Audio boardcasting, videoboardcasting, screenboardcasting, multichannel boardcasting, screen monitor, dialogue/voice intercom, , groupdiscussion, job submission, digital courseware, recorder and repeat, olne cinema, whiteboard, E-responder/call</p> <p>Self study: Independent on deman, repeater, electronic reading, Learing exchange, chat-romelectronic dictionary Examination: Oral test Listening test, writing test, spoken test, paper edit, test center</p> <p>Management: Remote control, black silence, system setting, fauldetect, alllock</p> | |
| <p>Terminal students / Amplifier: Continuously variable transmission to the same tune: 50% - +200% SNR >80dB Frequence response: 125Hz-10.0KHz(± 2dB), more than 16 bit linear sampling The recording time≥ 600 minutes Direct drive VGA color Lcd large screen display High definition VGA signal output</p> |  <p>VGA Out: connect monitor</p> <p>VGA In: connect host</p> <p>Net Port: connect video-audio data switch</p> <p>Size: 163*104*35mm</p> <p>Headset Port: RJ11 Headset</p> <p>Keyboard and Mouse Port: USB Type</p> |

| | | |
|--|---|--|
| | <p>Headphones: Frequency response 125Hz² ~ 8000Hz, ± 17dB (0dB =20 uPa) the input power = 1mw) Electrical impedance 32 Ω ± 20% Sensitivity ≥ 100dB/1mW(0dB = 2uPa) Microphone: Frequency response: 40-20000hz Type electrets phone Sensitivity: -47± dB (0dB = 1V/Pa Directional type two –way Delay voice: Broadcast ≤ 1ms Intercom ≤ 1ms Breakdown time:0</p> |  <p>The diagram shows a grey headset with a microphone boom and a cable. Two circular callouts highlight specific parts: the top one shows the microphone boom with a label 'Microphone' in a dashed box; the bottom one shows the RJ11 connector with a label 'RJ11' in a dashed box. Dotted lines connect these callouts to the corresponding parts on the headset.</p> |
| | <p>Network: Four in one network mode Power supply, data exchange and comunication control through CAT5/6</p> | |
| | <p>System requiment: Computer system (teacher’s computer and students’ computer: wind 7/8/10 – 32 bit/64bit (teacher’s computer (monitor +host): Cannot use the Lattop/ipad/Notebook Need 1000m Ethernet port CPU: I5/RAM 4GB, 1T Host need use VGA port, cannotuse DVI,HDMI, port type host Usb 3.0 port, computer host net port 1000m Student’s computer system (Monitor+host+ Terminal/amplifier) Cannot use the Lattop/ipad/Notebook Need 1000m Ethernet port CPU: I5/RAM 4GB, 1T Host need use VGA port, cannotuse DVI,HDMI, port type host Usb 3.0 port, computer host net port 1000m</p> | |
